

19<sup>th</sup> September 2023

Dear Prof. Gauthier,

We would be extremely grateful if you would consider our new manuscript for publication in JEP:HPP. This work represents a novel contribution to the field of contextual cuing of visual search. The work examines the interaction of learning, memory, and attentional processes, and we believe it is likely to be of interest to a wide audience, including those in the fields of statistical learning, and human associative learning.

Yours sincerely,

Tom Beesley (on behalf of the following co-authors)
